Subject: RE: Response to Inquiry

Hi Daniel,

Below is a clarification to our response:

"In EPA's letter to Senator Blunt dated April 3, 2018, EPA stated that "the source of TCE in air at Fantastic Caverns was determined to be the former Litton Systems site." The EPA wants to clarify that EPA has not determined the source of the environmental release of TCE migrating into Fantastic Caverns as the Missouri Department of Natural Resources is the lead agency overseeing the environmental evaluation of, and response to, this contamination."

Thanks,
LaTonya

Subject: Response to Inquiry

Hi Daniel,

Attached is the EPA response to your inquiry.

The original has been mailed.

Thank you.
